DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of species 3 (claims 1, 8, 9 and 15), in the reply filed on February 22, 2005 is acknowledged. However, due to the establishment of allowable subject matter in independent claim 1 and 9, as detailed below, the restriction requirement is withdrawn, and claims 2-7 and 10-14 are rejoined.

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The references cited within the IDS document, submitted by the applicant on March 22, 2004 (paper no. 0304), have been considered.

Drawings

The drawings as filed on March 3, 2004 are acceptable.

Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding

A method of fabricating a liquid crystal display as recited in each of independent claims 1 and 9, particularly characterized by dividing a photoresist into first, second and boundary regions, wherein the boundary region is divided incrementally or by square wave pattern such that the area of each of the gate electrodes or the source/drain electrode pairs in the first portion increases along the boundary direction and that in the second portion decreases along the boundary direction. Suzawa et al. (6,773,996) teach forming a liquid crystal display utilizing a photoresist, but do not teach dividing the photoresist into first, second and boundary regions, as recited in each of applicant's claims 1 and 9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
